Scalable Usage Rating
For Any Service, Any Product, Any Market

When your new generation of products and services are dependent on having a consistent meter of your customer's consumption, billing solutions that can scale with your business are paramount.

Our powerful rating engine is the core of IDI's end-to-end billing management system for telecom service providers. The ability to bill one-time, recurring, event, subscription or usage-based products and services across a wide variety of markets makes IDI the premier billing solution that continues to support your business no matter where it grows.

Scale With Confidence And Perform At Your Peak

IDI's cloud-based Billing & OSS platform provides flexible and consistent usage processing performance for service providers of all sizes. With our comprehensive rating, taxing, and billing solutions, you'll benefit from:

- **Streamlined Cloud-Based Billing** – Our automated billing architecture operates in the cloud, handling all processing needs while remaining invisible to your users, ensuring smooth daily operations.

- **Maximum Flexibility** – Our system uniquely separates usage processing into distinct steps, each tailored to a single function for an individual customer, simplifying reprocessing and enhancing efficiency.

- **In-Depth Customization Options** – Gain unmatched control over how your products and services are rated, taxed, and billed.

- **Advanced Invoicing Precision** – Our robust invoicing capabilities allow you to tailor the appearance of your bills to perfection, ensuring consistency across all markets.

- **Intelligent Dynamic Rating** – Offer competitive and flexible price points by considering factors like customer location, contract status, and consumption patterns of related products and services.

- **Unbillable Usage Dashboard** – Never miss out on revenue with our dashboard that tracks unbilled usage, enabling quick error correction and reprocessing in time for billing cycles.

- **Seamless System Integration** – Effortlessly integrate with your existing systems, allowing smooth data flow of customer and usage information in, and billing and taxation records out.

- **Roaming Partner Billing** – Efficiently manage billing for visiting and outgoing subscribers, and generate necessary data for seamless settlements with partner carriers.

A B/OSS That Is Guaranteed To Grow With You

Our proprietary Cloud Engine technology provides the flexibility and reliability to scale on demand for your high volumes of usage records and deliver a consistent experience as your usage processing needs grow.

Average Monthly Usage Processed By IDI

- **1.1 Terabytes** of Usage Uploaded
- **2.4 Billion** Records Rated
- **5 Million** Services With Usage
- **1.5 Million** Invoices with Usage

Build A Better Experience With IDI's Powerful Rating Engine.
