

A Powerful Partnership. Deliver A Fully Digital, Streamlined Bill Pay Experience

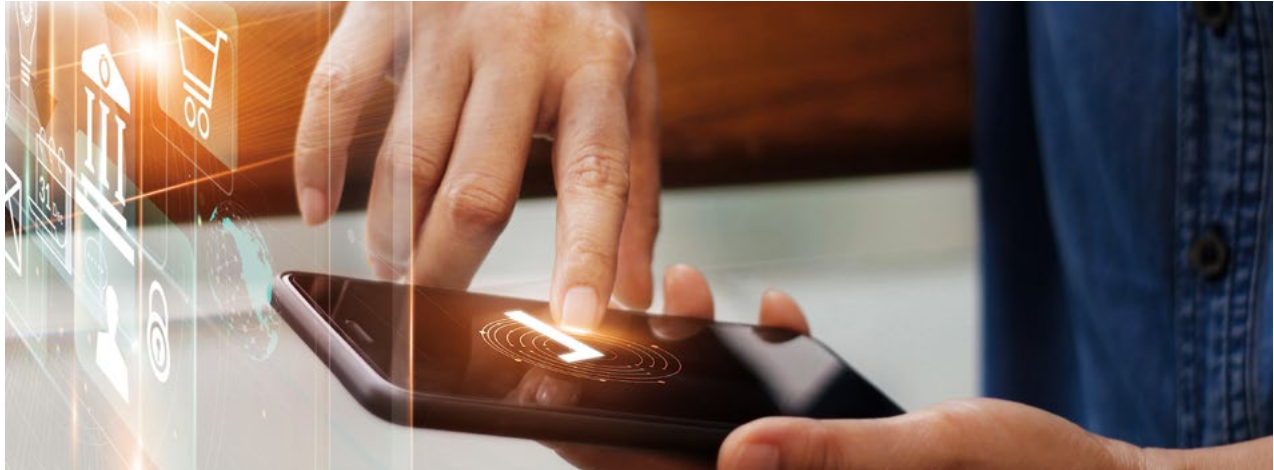

Payment Options Your Customers Expect

Today's consumers consider a seamless, frictionless payment experience to be an integral part of their service experience. With more channels, payment methods and innovation than any other vendor, Paymentus can help you bill better — all through a single technology stack and integration to your billing system.

Powering The Next Generation Of Electronic Bill Payments™

Give your customers more ways to pay, and get paid faster, while watching adoption soar as you modernize and streamline — all with complete transparency. By integrating your billing system with Paymentus, you'll have access to real-time account validation and payment postings, while eliminating data errors and delays. Plus, all of your customer data is managed from a centralized environment, making reconciliation easier than ever.

Elevate Your Offering And Enable Customers To Pay Wherever — And However — They Want.

By creating clarity and simplicity, Paymentus wires the way for real-time payments, reduced call volume, and superior service at every turn. Benefit from superior technology that is:

- ▶ **Highly Configurable & Widely Integrated** — Cloud-based platform integrates with hundreds of core systems and offers accessibility for a holistic control over your user experience
- ▶ **Compliant & Secure** — Minimize and eliminate the PCI burden on a system that is architected for 100% uptime and maximum security

A Fully Integrated Partnership That Delivers True Peace Of Mind.

Through an extensive process, IDI has forged this partnership to deliver on our commitment to providing clients with a full, web front office experience — including digital payment capabilities. When you choose Paymentus, you'll benefit from leading-edge technology that's been fully integrated into our CostGuard solution, including:

- ▶ Predefined partner integration requirements and ongoing testing — assuring a stress-free implementation process and seamless version updating
- ▶ Continuous product development — providing you with the latest in electronic bill pay options, features and functionality, including the ability to pass on surcharges and convenience fees
- ▶ Partner commitment to problem resolution — together, we are invested in your success

Meet Your Customers Where They Are Today — So You Can Better Serve Them Tomorrow.
